Literary Notices.

GODEY'S L. DY'S BOOK FOR MARCH Is one of the best issued in many years. The steel plate engraving is a scene from "David Copperfield," and, like all of Mr. "David Copperfield," and, like all of Mr. Darley's drawings, is true to life. The Fashion Plates are superb and natural in color. The complete novel by Robert C. Meyers, entitled "St. Murphy's Organ," is well told, and will keep the reader's interest from chapter I. to the end. There is also a good variety of choice short stories, poems. and sketches; a valuable chapter on Frugal Art, full of good, sensible directions that anybody can follow; the usual full array in the Work and Fashion Departments, of useful hints, directions, and reviews; an ar-Work and Fashion Departments, of useful hints, directions, and reviews; an array of Recipes that make hungry mouths water, and amusements, puzzles, and games that will make the children jubilant and happy; a drawing and plan of a picturesque suburban villa, and the genial Old Arm-Chair. And in addition to all these there is a diagram pattern for a child's dress, and a beautiful colored pattern for a lady's shopping bag. We can recommend this old favorite magazine to our readers, because of its pure and elevated tone, as a safe companion.

THE NEW BIBLE-QUICK WORK.

The new version of the New Testament. which has been so many years in course of translation and which is unquestiona-bly the most important literary enterprise this century has seen, is being wait-ed for with curiosity and anxiety by hundreds of thousands. It is not generally known that a first edition of 500,000 copies has already been manufactured in England, and 100,000 copies are said to be already in New York City, not one of them permitted to be sold. They are them permitted to be sold. They are awaiting a telegram from the authorities in England authorizing their issue. The first copies can only be had at the extravagant price of \$10 per copy. The Literary Revolution proposes fully to meet the demands which its army of friends are making upon it by doing probably the quickest work in book-making which has ever yet been accomplished. ing which has ever yet been accomplished. Arrangements have been fully made to put the entire book into type inside of 24 put the entire book into type inside of 24 hours from the time a printed copy of the English edition can be procured, and within three days at least 10,000 copies will be bound ready for delivery to waiting purchasers, and at least 5,000 copies will be manufactured every day thereaster, until the demand is met. It will be printed in large, beautiful type, neatly and strongly bound in cloth, in a volume of about 500 pages, and sold at the nominal price of 30 cents. A fine edition in half Russia, git top, will be sold for 60 cents, and one in full Turkey morocco, gilt edges, for \$1.25. Of course, the popular demand will be enormous. Orders will be filled in the order in which they will be filled in the order in which they are received, with remittance. American Book Exchance, New York.

Appletons' Journal for March gives a varied bill of fare, including adventure, travel, literary criticism, historic criticism, romance, and social essays. In "Adventures in Patagonia" we have a very fresh and stirring paper, giving a number of graphic descriptions of ostrich-hunting, deer-hunting, puma-shooting, and other nomadic adventures in that far-off land. The hunters were three English gentlemen and Lady Florence Dixie, the article being based on Lady Dixie's work describing the journey. "Scotch Orthodoxy and Modern Thought" is a searching and suggestive review of "Scotch Sermons," which just now is attracting so much attention in literary and theological circles. There is probably no more unique and picturesque figure in more unique and picturesque figure in history than Suwarrow, or Suvaroff, the famous Russian general of the last century; and the paper in the Journal describing his strange and fantastic character is one of really intense interest. A paper entitled "Some of Shakespeare's Female Characters" has fresh interest, if only from the fact that it comes from the pen of the once famous English actress, Helena Faucit, now wife of Sir Theodore Martin, author of the "Life of the Prince Martin, author of the "Life of the Prince Consort." Then we have papers on "Tennyson's New Drama," on "George Eliot," on "The Criterion of Poetry," and on "Some recent Novels." There is an original story by Barnet Phillips, and the conclusion of Erckmann-Chatrian's "Veterans of Yesterday." The editor has several papers, including a discussion of the Shakespeare and Bacon question, with some fresh suggestions on the topic, and a wholesale assault on the theory and a wholesale assault on the theory that women have superior intuitions to men. "Notes for Readers" closes the

The contents of the North American Review for March must win the atten-Review for March must will the attention of all by the timeliness of the topics discussed. First, we have a thoughtful and moderate article by Bishop Coxe on "Theology in the Public Schools." The author would sternly exclude from the schoolroom all sectarian dogmas, whether Papist or Protestant, but he insists on the retention of the Bible, first because that book is the principal fountain of our English speech, and secondly because it is really the base of our social system. The second article is by Captain Eads, who endeavors to show the practicability of his ship-railway, its advantages over all canal schemes, and why the United States can without risk guarantee the payment of 6-per-cent, interest on \$50,-000,000 of the capital stock of the proposed company. Judge H. H. Chalmers, writing of the Effects of Negro Suffrage, bespeaks for the Southern States, while engaged with the solution of the great engaged with the solution of the great problem that has been forced upon them, the sympathy and counsel of the North. The other articles are "The Free-School System," by John D. Philbrick, being a reply, to the recent strictures of Mr. Richard Grant White on the public schools; "Theological Charlatanism," by Mr. John Fiske, whose typical theological charlatan is Mr. Joseph Cook; and, finally, a review of some recent publications in Physics, by Prof. A. To Relieve a Cough.

There is nothing more safe, pleasant and effectual in relieving a dry cough than lemonade, made into a syrup by the addition of a considerable quantity of white sugar, and sipped from a spoon and slowly swallowed. The acid of the lemon thins the secretion from the mucous membrane, and the sugar has a soothing action, allaying irritation and promoting expectoration, which are the two great ends to be accomplished in all inflammations of the throat, nose, and bronchial tubes.

The use of opiates may allay irritation and smother up the cough, but they sheck the secretion, which is the natural mode of relief; and thus, instead of curing, they often aggravate the inflammaon to such an extent that fatal disease is the consequence.

A gentleman, after getting a soda-andbrandy, was retiring from a railway-station refreshment-bar. "Recollect, sir," said the polite barmaid, "if you lose your purse, you didn't pull it out here."
